## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 22-23 are rejected under 35 U.S.C. 102(e) as being anticipated by Reelee, US. Pat. No. 6,791,605.

3. Claim 22, Reelee teaches a printer/powerd peripheral node system [*Figs 2 and 3*], comprising

a printer [*printer 30 of Figs 2 and 3*] configured to be connectable to a plurality of peripheral device [*Figs 2 and 3*] so that each of said peripheral devices reside within a housing which is one of: a) attached to, and b) enclosing, the printer [*Figs 2-3*];

a data bus connection configured to facilitate data communication with the printer and with each of said peripheral devices [*Figs 1-2*]; and

a power connection configured to facilitate power supply to the printer and to said plurality of peripheral devices [*col. 5, lines 6-8*].

4. Claim 23, Reelee teaches the power supply is housed with the printer and is configured to provide power to the printer and to said plurality of peripheral devices [*col. 5, lines 6-8*].

***Allowable Subject Matter***

5. Claims 24-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. Claims 1-21, and 28-40 are allowed.
